

For many clients, we build replicas or restore original boats with materials and techniques used exactly as they were 100 years ago. Others seek our expertise restoring boats and building replicas that incorporate **state-of-the-art** epoxy coatings and adhesives. Artisan Boatworks pioneered and excels in the skillful application of these and other cutting-edge technologies to wooden boat construction, achieving enhanced performance and reduced maintenance without altering original appearance.

For most of our clients, the restoration of a family **heirloom** or the commission of a custom wooden boat is the culmination of a lifelong dream. At Artisan Boatworks we take these dreams to heart: working closely with each client throughout the design and building process, listening carefully, and collaborating effectively. We pride ourselves on meeting deadlines, respecting budgets, and ensuring that the end result is the exact realization of your dream.

For **museum-quality** restorations; precise replicas of classic designs; or exquisite new high-performance carbon fiber and cold-molded “spirit of tradition” daysailers, cruisers, and racers: the team at Artisan Boatworks is second to none. Contact us today to discuss your vision.

# ARTISAN BOATWORKS

CLASSIC WOODEN DAYSAILERS

[www.ArtisanBoatworks.com](http://www.ArtisanBoatworks.com)

**Artisan Boatworks'** team of master craftsmen build, restore, and maintain fine wooden boats up to 50' feet LOA at our purpose-built shop in mid-coast Maine.

Our **expertise** begins with a thorough understanding of and appreciation for the work of yachting's great designers and builders: the Herreshoffs, Fife, Starling Burgess, B. B. Crowninshield, John Alden, Sparkman and Stephens, Joel White, and their contemporaries. Like our clients, we are drawn to the supreme blend of timeless beauty and wholesome performance achieved by these designers.

At Artisan Boatworks we have extensive experience restoring and maintaining century-old classics, bringing important original boats back to life, as beautiful and strong as the day they were first launched. This restoration experience underlies our recognized skill building **stunning replicas** of classic designs, which embody the intention and spirit of their designers.

Artisan Boatworks also offers comprehensive off-season "mooring-to-mooring" storage and maintenance services, ensuring consistent, expert care for fine wooden boats up to 50' LOA. From Long Island to Eastport, we come to you, haul, de-rig, and trailer boats to and from our specialized indoor storage facility in Rockport.
